### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights on the source, and is issued for the full acreage applied for, notwithstanding the fact that a portion of the land included in this application is listed under proof of appropriation No. 01351 and permit No. 2661. The acreage in conflict entitled to a vested right, if any, will be deducted from the certificate under this permit when issued, while the acreage in conflict with permit No. 2661 will be eliminated from the latter in case a certificate is issued thereunder. A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed Two & 4/10 cubic feet per second. (2.4)

Actual construction work shall begin on or before December 22, 1915.

Proof of commencement of work shall be filed before January 22, 1916.

Work must be prosecuted with reasonable diligence and be completed on or before December 22, 1916.

Application of water to beneficial use shall be made on or before March 22, 1921. Proof of the application of water to beneficial use must be filed with State Engineer on or before April 22, 1921.
